

Activity Bingo! (Summer term 1)

Activity bingo is your chance to complete tasks away from school that you can do in your own time.

It's simple: choose a task, then cross it off when you've finished and get an adult to sign it.

Try your best to complete ALL boxes that are **yellow**. **Blue** boxes may require some equipment and the **pink** boxes do not require any (both blue and pink are bonus tasks). A prize will be given if you manage to finish ALL tasks.

Help an adult prepare dinner.	Design your own beach hut by drawing or painting.	Think of 2 structures or buildings that you can find by the seaside.	Draw a sea creature.	List 3 things you might find on a beach.
Read out loud to a family member.	Make a poster showing the variety animals that live in the sea.	Count backwards from 100! Make sure an adult hears you count.	Play a game outside with a family member.	Find a photo or picture of the beach.
Write down as much food you can think of that comes from the sea.	Help an adult set the table for dinner.	Can you name 5 different beaches in the UK?	Use Google Maps to find some UK coastline. You could print this for evidence.	List and draw some animals from the sea that have shells.

You could get an adult to take photos of your challenges to bring into school.
