19th March 2020,

Dear Parents and Carers,

Following the information shared last night about schools staying open for students with an EHCP we are doing everything we can to stay open.

To keep our school running as smoothly as possible we have put measures in place to ensure the safety and care of our students is put first.

We already have over 20% of staff isolating which means next week we will not be able to run a full school safely.

If staff attendance is 70% we will close our 16+ provision. If the staffing % increases further we will take a measure on how many students we have in school and how many staff we have in school and reassess the risks.

Our tutors will continue to contact students' families on a weekly basis that are not in school to ensure we keep in touch and support one another during this difficult time.

As a senior team we have also identified emergency measures in which we would have to close the school:

1. If there is only one first aider on school site
2. If all the senior team are in isolation
3. If all our Multi Academy Trust Site Services Team are in isolation
4. If there is insufficient capacity to clean the school due to a reduced cleaning service

We have also identified individual students where the absence of individual staff members would create high anxiety and we are contacting parents individually so there is a plan in place for these students.

For students attending school our priority now is to look after them, keep them safe and happy. If we can build in learning opportunities we will, but our focus is keeping the school safe with a reduced staff team.
